DEDICATED TECHNOLOGIES, INC.

Dedicated Technologies, Inc. is an Information Technology Consulting Firm that is dedicated to providing outstanding technical services to our clients. Dedicated Technologies, Inc. (DTI) proudly employs the best people that work in the IT industry. Dedicated Technologies, Inc. began in 1997 as the Columbus office of Chicago-based Neumark Technology Group, and in 1999, was spun off into a separate entity, now known as Dedicated Technologies, Inc.

COMPANY

We employ over 70 employees, providing both staff augmentation and full life cycle project development. We provide a wide range of IT/IS solutions, from customer application development to server administration, custom scripting, security assessment and implementation, and project management. We employ certified PMP project managers, MCSE's, Six Sigma, ITIL, and other industry-certified professionals.

We value the strong and long-term relationships and partnerships that we have built by providing solutions that enable our clients to be successful. DTI has pride in the impact that we have made on the consulting industry in our markets. Our team achieves this by providing a solid framework of quality solutions and services.

MISSION

The mission of Dedicated Technologies is to be a partner in the success of progressive, growing companies in our community by providing the highest quality technology resources and services to our clients. We continually strive to provide leadership in software development, enterprise support, and project management solutions to our clients. Our clients can always expect complete integrity in our business relationships.

VISION

By building a clear sense of purpose and strong relationships within Dedicated Technologies, the staff and leadership team can then aspire to be the technology service provider that is the standard by which others are measured and to provide quality services that our clients ask for by name.

EXECUTIVE BIOS

Jeffrey Dalton (Founder, President, & CFO) has more than 25 years of experience in the technology industry. Jeff earned a BS degree in Finance from the University of Illinois and an MBA in Management Accounting from DePaul University. Jeff serves as a project manager for many of DTI's clients. His areas of expertise include accounting, costing, and transaction processing in the construction, manufacturing, healthcare, and service industries. Jeff's e-mail: jeff.dalton@dedicatedtech.com

Patricia Lickliter (Vice President & COO) has over 14 years of experience in the technology industry. Prior to the IT industry, Patty had served as the general manager for an international airline catering firm. She has also worked as a school teacher in Chicago, Illinois. Her current focus is sales, recruiting, and operational responsibility for DTI. Patty's e-mail: patty.lickliter@dedicatedtech.com
